

## LIFE

Life is a blessing,  
A blessing to nurture,  
To nurture for our family,  
Our family who loves and supports us,  
Who loves and supports us no matter what.  
No matter what happens, be thankful.  
Be thankful for your blessings,  
Your blessings are the fruits of your hard work,  
Your hard work deserves compliments,  
Compliments that motivate you to strive for more,  
More for your love ones, yourself and the Creator.  
The Creator, who is responsible for everything that is good,  
Everything that is good for you and your noble life.
