

Starbucks in Britannia

Reviewed by Kaleigh Mirosh

Starbucks is a really big place. There are tables and they have chairs; some of them are big comfy ones. You can get up and order drinks. They have lattes, cappuccinos, spiced cappuccinos, vanilla lattes, grande vanilla frappuccinos (that's what mom always gets), and don't forget about the pumpkin spice latte! They have hot chocolate as well.

You can get cinnamon buns that are sweet and sticky at the same time. They also have cookies that are soft and fresh. They have cake pops for the kids that are sweet and yummy at the same time, and have sprinkles on them. The muffins are soft, rich, and have a fluffy texture. You can get any kind of muffin and put butter on it; they are soft on the inside and the outside as well. The loaves are soft and delicious at the same time.

For wraps, they have veggie, chicken and brie, zesty black bean quinoa (this is my favourite of all time – it has corn in it). They have two kinds of Bistro Boxes: protein, and cheese and fruit. My most favourite is the cheese and fruit. In the protein, they have apples and grapes with peanut butter (for dipping), a boiled egg, and a pita. The cheese is soft and yummy in the cheese and fruit box. It also has apples, trail mix, and crackers.

They have yogurt parfaits with honey, strawberries, blueberries, and peaches. It's soft, rich, and creamy. They also have chips – BBQ and apple chips – they are crunchy. Don't forget the smoothies: green machine, mighty mango, berry blast, orange juice, and a new one called red machine (this is my favourite).

I give my review 10,099 points.
